

BAKING GUIDE

Ready-to-Bake Viennoiseries

Straight from Freezer to Oven • Authentic French Pastries

1. Tray & Spacing Setup

1. **Line your tray:** Place a sheet of parchment paper onto your baking sheet.
2. **Space them out:** Arrange pastries leaving generous room between them—they will at least double in volume while baking!
3. **Pre-glazed:** No need to egg-wash; each pastry is already glazed for a golden finish.

2. Oven Preheating

1. **Convection mode:** Preheat your fan-assisted oven to **170°C–180°C (340°F–355°F)**.
2. **Uniform heat:** Ensure the oven is fully preheated before sliding the tray in.

3. Baking (23 to 30 Min)

1. **Bake time:** Bake for approximately **23 to 30 minutes** depending on oven power.
2. **Color is key:** Rely on an even, deep amber-golden color rather than strictly on timer minutes.

Baker's Golden Rules

- ✓ **Keep Oven Closed:** Avoid opening the door during the first 15–20 minutes to let the pastries rise to their full flaky potential.
- ✓ **Rest Before Serving:** Let them cool on the tray for 10–15 minutes after baking so the flaky layers set and achieve maximum crispiness.

Store frozen at -18°C (0°F) • Bake directly from frozen • Enjoy fresh!
